CHOOSING A COLLEGE AND CAREER

WHERE DO I GO FROM HERE, AND HOW DO I GET THERE?

Have you ever thought about what you'll be doing in five, ten, or fifteen years from now? What college will you attend? What career will you pursue? Perhaps you've already visualized yourself as a doctor saving lives, a lawyer defending a client, or a teacher shaping the lives of youngsters. Maybe there are certain courses you're studying now that you enjoy tremendously, and you're wondering how that passion might translate into a profession.

Deciding on the college you'll attend and the career you'll pursue can be challenging. There are limitless possibilities, but if you develop a plan now, you'll have a better chance of achieving your dreams. Gateway is committed to helping you begin to plan the rest of your life, and with that in mind we have created *Where Do I Go From Here, And How Do I Get There?*

In the following pages, you will find important information and a series of exercises designed to help you focus on what your strengths might be and how to ensure that you wind up in a college and a career that suit your needs and your talents. Some of the activities can be done independently while others are more beneficial if done cooperatively in groups or with guidance assistance. Whatever the case, keep all your work in a safe place, and you will have the beginnings of a portfolio suitable for use as you begin the college application process and the pursuit of an internship.

We wish you success as you begin the journey to your future.
